Project Name	Import Data Using Transform Maps (Spreadsheet)
Maximum Marks	2 Marks

Customer Journey Map

Map the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities.

Phase of Journey	Stage 1 Data Preparation	Stage 2 Data Import	Stage 3 Validation
Actions	• Prepare employee data in spreadsheet. • Check required fields and format. • Save the spreadsheet correctly.	• Upload spreadsheet into ServiceNow. • Create/select the Transform Map. • Run the data import.	• Check imported records. • Verify field mapping and data. • Fix errors if required.
Touchpoint	• Excel / Spreadsheet • Employee data sheet • ServiceNow import set	• ServiceNow Import Set • Transform Map • Data import process	• ServiceNow employee table • Import logs • Error/validation messages
Customer Thought	• Is my spreadsheet format correct? • Did I enter all required data? • Will the data import correctly?	• Are the fields mapped correctly? • Will the Transform Map work? • How long will the import take?	• Was all data imported? • Are there any errors? • Is the employee data accurate?
Customer Feeling	• Careful • Slightly concerned • Hopeful	• Focused • Curious • A little nervous	• Relieved if successful • Satisfied with accurate data • Concerned if errors remain

	Stage 1	Stage 2	Stage 3
Process Ownership	Project Team / Data Administrator	ServiceNow Administrator / Project Team	HR / Data Administrator
Opportunities	Provide a standard spreadsheet template. Add clear required-field instructions. Validate data before upload.	Make Transform Map configuration simple. Show mapping clearly. Provide import progress/status.	Display clear validation results. Highlight errors and missing data. Allow easy correction and re-import.
